

Meeting in relation to Defibrillators in Tadcaster

Location: 22 Bridge Street, Tadcaster, LS24 9AL Time: 6.30pm

Present: Nicola Eades TFAG & David Bowgett

Meeting requested by David Bowgett to discuss the defibrillator project for Tadcaster.

1. Summary of the project designed by David Bowgett:

The placement of four outside defibrillators in steel cases, in the below locations:

- Rosemary House attached to the building.
- Kelcbar House attached to the building.
- Calcaria House attached to the building.
- Outside Costa in the BT phone box.
- With an additional AED trainer unit for training within the community.

Funding source pending. DB has filled out an application for the Big Lottery Fund for £7,824 (copy of application received)

Project commencement date from May 2017 once funding approved and received.

Suggestions:

- NE suggested from the above summary that DB considers a further defibrillator on the East side. DB to ask the “Broken Bridge” if one can be located in this area, totalling the purchase of 5 defibrillators.
- NE suggested a quote from First Rescue based in Tadcaster, providing a reliable and local source for the equipment.

2.

DB requested TFAG’s involvement for the project, with the possibility of the group applying for the funding through the Big Lottery fund, application provided and to be submitted by DB.

DB has specified in the application he would be the lead contact, therefore TFAG would be the registered charity delivering the financial aspect of the project once the funding was received by the Big Lottery Fund.

NE requested who would be responsible for the overall insurance and maintenance of the defibrillators. DB notified NE he would be forming a group and they would be responsible for the on going maintenance.

Action: NE to notify all Coordinators, to form a decision with all trustees in relation to TFAG’s involvement in the project.
